TECHNICAL PROJECTS

Forge – AI-Powered Networking Platform (forgenetwork.app)

Remote

Solo Developer – Founder

Aug 2026

- Designed and shipped a full-stack, AI-powered personal networking platform (one-click LinkedIn import, tagging, and notes) independently on Anthropic Claude Code, owning frontend, backend, and deployment (Supabase, local-first browser storage, Anthropic Claude API)
- Built “Find My Path” and “Ask Lucky,” AI features that rank a user’s own contacts by relevance to a goal, draft personalized outreach, and answer plain-English questions about their network
- Drove early adoption through organic content marketing and on-campus street interviews across NYC colleges, acquiring the platform’s first users within its opening week

Signlr – AI-Powered Trading Signals Platform (signlr.app)

Remote

Solo Developer – Founder

May 2026

- Built and shipped a full-stack fintech SaaS product independently alongside Anthropic Claude Code, handling architecture, backend, frontend, and infrastructure end to end (Node.js, Supabase, Stripe, Anthropic Claude API)
- Incorporated quantitative indicators derived from OpenYield and Alpaca's APIs to generate AI-assisted trade plans for retail traders
- Integrated Alpaca’s market data API to power a live stock screener and implemented Stripe subscription billing, user authentication, and rate-limited API infrastructure
